

#### Hookah Smoking: Known Health Effects and Associated Substances

The Triangulum: Tobacco, Marijuana, and E-Cigarettes Thursday, May 26, 2016 Mary Rezk-Hanna, NP, PhD

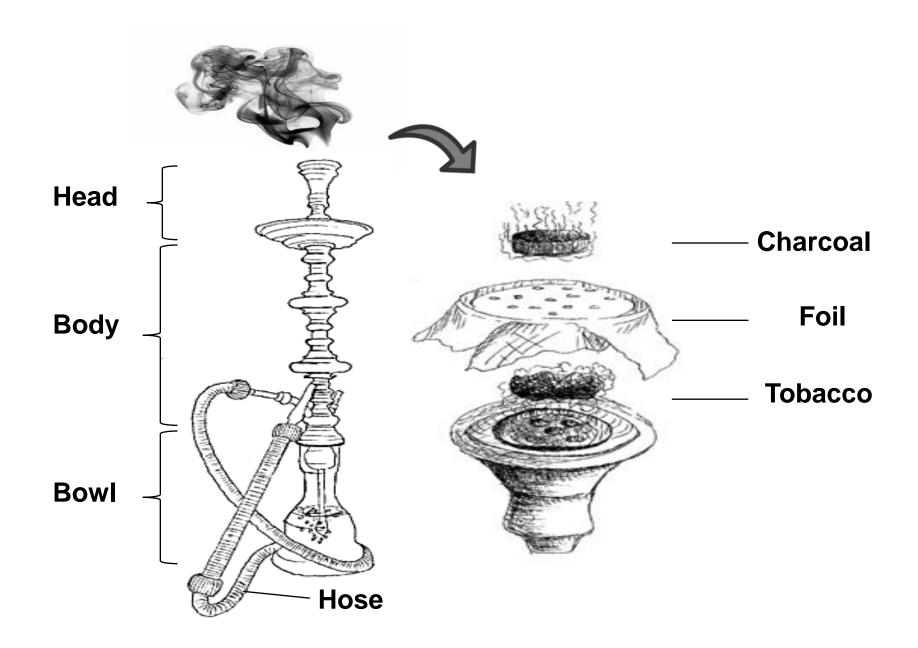

# Acknowledgments

Ronald Victor, MD (Cedars-Sinai Heart Institute) Linda Sarna, RN, PhD (UCLA) Lynn Doering (UCLA) Robert Elashoff, PhD (UCLA) Donald Tashkin, MD (UCLA) Neal Benowitz, MD (UCSF) Wendie Robbins (UCLA)

Funding: #22XT-0017, #23DT-0102 Tobacco-Related Disease Research Program

# **Hookah Smoking**

- > 500 year-old form of tobacco use
- Unsubstantiated belief "smoke should be first passed through water so that it would be rendered harmless."
- i.e. waterpipe, gouza, narghile, or shisha

#### **Polysubstance Use**

# Hookah smoking is associated with polysubstance use especially marijuana, cigarettes and alcohol.

Fielder, Carey, Carey. 2013. Addict Behav;38:2729-35. Brockman et al. 2012. BMJ Open;2:e001709.

# **Polysubstance Use**

- Marijuana and cigar use: significant predictors to hookah
   Smoking (Shepardson, Hustad. 2016.
   Nicotine Tob Res;18:763-9. Haider et al. 2015.
   Drug Alcohol Depend;1:359-63; Villanti et al.
   2015. Am J Prev Med;48:742-6)
- In 3,418 college students, <u>Hookah/marijuana/ LCC co-</u> <u>users</u>:
  - Past 4 months: 11.3%
  - Past 30 days: 9.1%

(Haardorfer et al. 2016. *Addict Behav*; 64)

# **Hookah Smoking Epidemic**

- Flavored tobacco product
- Unregulated (May 5<sup>th</sup>, 2016)
  - Accessibility/ affordability
  - Aggressive media and marketing
- Understudied
  - Reduced harm perception
  - Little is known

#### FDA RULES FOR HOOKAH AND PIPE TOBACCO SALES

Are you taking the necessary steps to prevent underage tobacco use?

Check photo ID of everyone under age 27 who attempts to purchase hookah tobacco or pipe tobacco.

Only sell hookah tobacco or pipe tobacco to customers age 18 and older.\*

Do NOT give away free samples of hookah or pipe tobacco, including any of their components or parts.

Do NOT sell hookah or pipe tobacco in a vending machine unless in an adult-only facility.\*\*

#### PROVIDED BY THE CENTER FOR TOBACCO PRODUCTS

This flyer provides a snapshot of some of the new requirements for hookah and pipe tobacco, effective OB/08/2016. See our website www.FDA.gov/Tobacco for a full list of requirements that may apply to you.

#### 🛃 FDA

"Natalara maat shaa balaw stata or lacal takacaa baw, awaa if day zao mano matetxiwa. For azampla, in zamo statua dio minimum zayo in 17. "Na subili-only lacality ia awa in which minara zo natikar penant nar permitted to onter st zay tima.

#### **Hookah Flavored Tobacco**

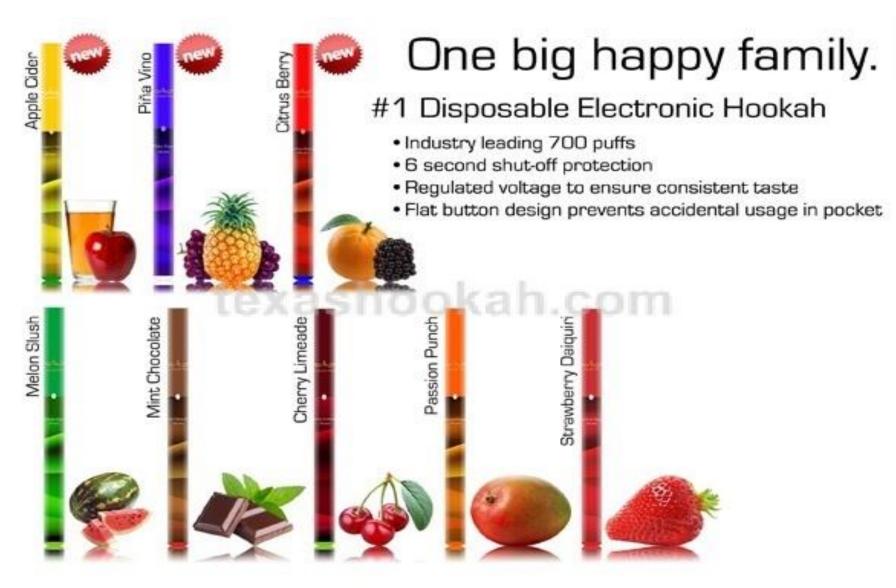

#### Media & Marketing

### Media & Marketing

...we'll just be passing it [ehookah] around & enjoying the smell that the vapor leaves in the air because <u>it smells all fruity</u> <u>& candyish & delicious</u>." "ehookah just sounds like it's better because if you have an ecig, it's still a cigarette in a way. Then you have a hookah pen. It's like hookah, it's kind of <u>cool</u>. It's <u>better</u>"

Wagoner et al. Nicotine Tob Res. 2016 Mar 30. [Epub ahead of print]

## **Reduced Harm Perception**

"Hookah will <u>never be</u> <u>addicting</u> because it does not contain nicotine" "Hookah is harmless because all the smoke passes through the <u>water filter</u> first and then through fruits"

"I hate smoking cigarettes because it has a bad taste to it compared to Hookah which is <u>very</u> <u>flavorful</u>"

Rezk-Hanna, Macabasco-O'Connell, Woo. Nurs Res. 2014;63:300-6

### **Hookah Smoke Exposure**

# Subject Characteristics (n=28)

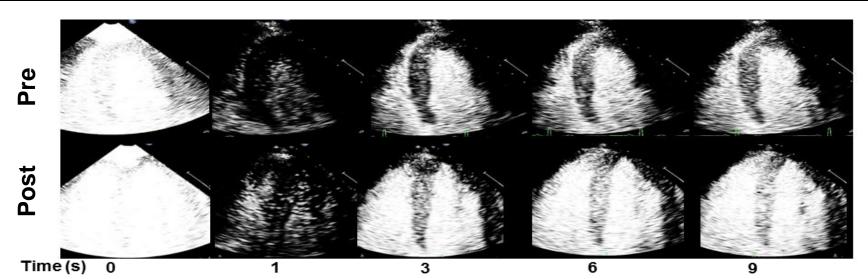

Variable	N or mean ± SD
Female/ Male	8/20
Age, years	27 ± 5
Body Mass Index, kg·m <sup>2</sup>	25.0 ± 4.0
Race/Ethnicity	
Non-Hispanic White	9
Non-Hispanic Black	14
Hispanic	1
Asian	1
Native Hawaiian/ Pacific Islande	r 1
Middle-Eastern Origin	2
Level of Education Attained	
High school	6
College	20
Graduate	2
Hookah Smoking History	
Number of Hookah Sessions per week	2 ± 2
Session Duration, minutes	102 ± 60
Age of Hookah Smoking Onset, years	
<u>&lt;</u> 17	5
18-24	19
25-29	3
30-39	1

#### Health effects associated with waterpipe smoking.

El-Zaatari ZM1, Chami HA2, Zaatari GS1.

Acute Effects	Chronic Effects
<ul> <li>Cardiovascular:</li> <li>Increased heart rate</li> <li>Increased blood pressure</li> <li>Respiratory: <ul> <li>Impaired pulmonary function</li> <li>Decreased exercise capacity</li> <li>Larynx and voice changes</li> </ul> </li> <li>Carbon monoxide intoxication</li> </ul>	<ul> <li>Cardiovascular: <ul> <li>Ischemic heart disease</li> </ul> </li> <li>Respiratory: <ul> <li>Impaired pulmonary function</li> <li>Chronic obstructive lung</li> <li>disease</li> <li>Larynx and voice changes</li> </ul> </li> <li>Cancer: <ul> <li>Lung</li> <li>Esophageal</li> <li>Gastric</li> </ul> </li> <li>Low birth weight</li> <li>Periodontal disease</li> <li>Lower bone density, high fracture risk</li> </ul>

Figure Adapted from: EI-Zaatari et al., Tob Control, 2015

#### Conclusion

- Advocate for more research: extent to which Hookah smoking negatively affects human health is not well known
- Policy regulation: flavored hookah tobacco, charcoal and water
- Dissemination of findings to the public, particularly to adolescents and young adults

# Thank you

Mary Rezk-Hanna mrezk@ucla.edu
